### Features:

- Many cavity sizes and shapes in wide choice of anti-static, static dissipating, conductive and EMI shielding materials
- Stock sizes available on short notice
- Suitable for clean room packaging and assembly

### Benefits:

- Test runs, prototypes and custom design services help you find creative solutions to problems in handling circuit boards and other electronic parts.
- Multi-cavity design prevents migration of parts
- Extra security for better inventory control
- Complete kitting in a single tray offer efficient parts assembly.
- High or low volume production capability and fast turnaround time support your own manufacturing needs for just -in-time delivery.

Custom sizes are available upon request. If you would like more information please call or e-mail us at [sales@cpproducts.net](mailto:sales@cpproducts.net).
